Education

2006 – 2010
Borys Grinchenko National University Of Kyiv, UA

A software engineer with more than **10 years** of experience in various fields of expertise.

During the last over five years I've been working as a **remote contractor** for companies all over the world.

I was taking part in the development of different projects for customers, starting from small-business websites to developing complex web projects, such as social networks and eCommerce platforms.

Seeking a **mid-/long-term remote** position as an either **full stack or frontend** software engineer at some great company, to leverage technical, organizational and research skills.

Experience:

09/2018 – Present
Lead Full Stack JavaScript/Meteor Developer
at [NDA]

Establishing a marketplace platform that assists expo centers owners and managers to plan, demonstrate, and sell their expo spaces to the end customers.

Used languages and technologies:
ES8, Meteor, Node.js, React, Redux, Paper.js, D3.js, Three.js, PDFKit, Canvas, HTML, CSS, SASS, Mongo, Webpack, Git, Semaphore

03/2018 – Present
Co-Founder & CTO
at WedMeet / wedmeet.com

Developing from scratch the website of the online event agency that is aimed to help photographers, artists, organisators, toastmasters and other creative people to offer their services and to communicate with potential customers.
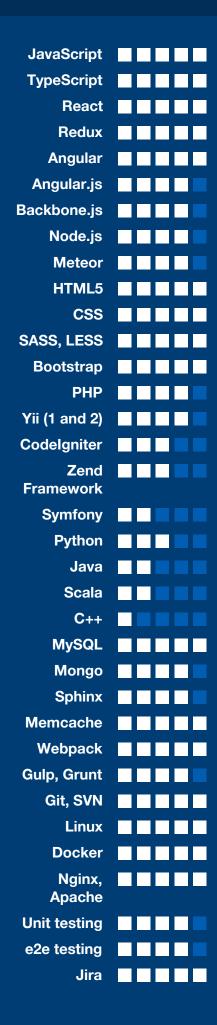

Used languages and technologies:
